- get an accurate report of the complaint;
- Senior management will review complaint and consult (via web or attorney) how to implement corrective actions;
- explain our complaints procedure;
- find out how the complainant would like it handled;
- decide who is the appropriate person internally to handle the complaint, or help redirect the complaint to another entity, such as the relevant supplier, or a relevant industry body;
- where the issue can be handled internally, seek further information where possible and appropriate;
- identify any actions we should take, or monitor the situation;
- If corrective actions are required, they will be implemented in policies and procedures;
- advise the complainant of any decisions or outcomes; and
- keep records on complaints received, and the internal process followed, for at least five years.
